**Subject:** Voluntary Student Accident Coverage

Principals,

This year the Voluntary Student Accident Program does not have take-home brochures for all students. This year students and/or parents must enroll online.

The web address for the student or parent to access for enrollment or additional information and rates is [www.sruins.com](http://www.sruins.com).

You may want to include this information in your student handbook and any back to school packets that you provide to students and their parents. **Parents need to know that this Voluntary Student Accident Program goes beyond school activities.**

You may also want to pass this information along to your school secretary as well as coaches in your buildings.

Again the web address is : [www.sruins.com](http://www.sruins.com)

Thank you for your attention to this matter.

Conrad F. Cooper
